

# Residential Swimming Pool Initiative

## Pool Pump Qualifying Product List

December 14, 2018

This list is based on the 2013 CEE Residential Pool Pump Specification.  
The list is updated monthly. See the CEE website ([www.cee1.org](http://www.cee1.org)) for the most recent listing.

### New DOE Test Procedure and Energy Use Metric

As of February 5, 2018, CEE no longer publishes the energy factor values for models that meet the Swimming Pools Initiative specification in this qualifying product list. On this date, a new DOE test procedure for pool pumps went into effect, which results in energy use reported under a new metric, weighted energy factor. The Consortium is revising the current specification and intends to move to this new metric. Product manufacturers should note that until the specification has been revised, CEE is only able to add models to the list based on energy factor data. While CEE cannot add models to our list based on weighted energy factor data, we would welcome these submissions to inform our specification revision process.

### Key

[Please click here for a list of all models](#)

[Please click here for a list of all models which meet Tier 2 specifications](#)

- Energy Factor (EF) is the volume of water pumped in gallons per watt hour of electric energy consumed by the pump motor (gal/Wh).
- Although all models on the CEE list are very efficient, the tiers are structured so the most efficient products are listed in the higher tiers. For example, Tier 2 would contain the most efficient models.

### How this list is generated:

The products on this list meet the CEE Residential Pool Pump Specification, as well as the ENERGY STAR® Eligibility Criteria (currently Version 1.1), which define performance requirements and test procedures for pool pumps. All product information was obtained directly from the ENERGY STAR® Product Finder database on March 7, 2017.

CEE does not verify manufacturer data with third-party labs, however products on this list have completed ENERGY STAR® third-party certification, and have therefore been tested by an US Environmental Protection Agency (EPA) recognized laboratory.

**CEE does not administer rebate programs. Consumers who have questions about filling out rebate forms should contact their local efficiency program administrator (often the local utility).**

### CEE Brand Information

The CEE logo and service mark must not be used in any manner that would imply CEE endorsement of a company, its products, or its services. That means the CEE logo may not appear in a product description or label. CEE is brand and technology neutral. CEE endorses and promotes levels of efficiency through initiatives and publishes lists of products and services whose manufacturers or providers claim to meet CEE efficiency tiers.

If you reference the name "CEE" or "Consortium for Energy Efficiency," please note:

1. CEE does not endorse, certify, qualify, or brand products. Therefore, it is incorrect to claim that a product is "CEE certified" or "has earned a CEE rating."
2. You may indicate that products qualify for or meet one of the CEE tiers of energy efficiency. The following phrases are accurate: "(product) meets CEE specifications," "qualifies for a CEE tier," or best of all, "the manufacturer claims appliance x meets CEE tier y." We're happy to review your materials and will do so in a timely manner.

For additional information, please see the Press Kits section of our website: [cee1.org/content/press-kits](http://cee1.org/content/press-kits).

We appreciate your support of energy efficiency.

### Terms and Conditions for Use of CEE Qualifying Product Lists

CEE grants to a CEE member that is an efficiency program administrator permission to access, use, and download CEE QPL material solely for its own use in its own program administration, and not for resale, republication, or assistance to any non-CEE member. Any entity that would qualify for CEE membership and elects not to become a CEE member may not use this or any other CEE QPL work product except through a licensing arrangement with CEE. Any entity that provides or offers to provide services to any non-CEE member program administrator may not use CEE QPL work products except through a licensing arrangement with CEE.

CEE does not make, sell or distribute any products or services, other than CEE membership services, and CEE does not play any implementation role in the programs offered and operated by or on behalf of its members. The accuracy of member program information and of manufacturer product information discussed or compiled in this site is the sole responsibility of the organization furnishing such information to CEE, and CEE is not responsible for any inaccuracies or misrepresentations that may appear therein. CEE does not itself test nor cause to be tested any equipment or technology for merchantability, fitness for purpose, product safety, or energy efficiency and makes no claim with respect thereto. CEE qualifying products lists are based on information supplied by manufacturers, either directly or through an independent third-party testing agency. The references and descriptions of products or services within the site are provided "As Is" without

any warranty of any kind, express or implied.

CEE is not liable for any damages, including consequential damages, of any kind that may result to the user from the use of the site, or any of the product or services described therein. Although the CEE Internet site is accessible worldwide, products and services discussed in the site are or may be available only in certain locations within the United States or Canada.

Although the CEE Internet site includes links providing direct access to other Internet sites, CEE has not participated in the development of those sites and does not exert any editorial or other control over those other sites.

By using this website you acknowledge and agree to the foregoing terms and conditions of use. If you do not agree to the use terms, you may not access or otherwise use the website. CEE reserves the right to change the terms, conditions, and notices under which this website is offered.

## CEE Qualifying Residential Pool Pumps

December 14, 2018

[This list is based on the 2013 CEE Residential Pool Pump Specification.](#)

The list is updated monthly. See the CEE website ([www.cee1.org](http://www.cee1.org)) for the most recent listing.

### Tier 1 Pool Pumps
