

## Residential Swimming Pool Initiative Pool Pump Qualifying Product List June 15, 2018

This list is based on the 2013 CEE Residential Pool Pump Specification.  
The list is updated monthly. See the CEE website ([www.cee1.org](http://www.cee1.org)) for the most recent listing.

### New DOE Test Procedure and Energy Use Metric

As of February 5, 2018, CEE no longer publishes the energy factor values for models that meet the Swimming Pools Initiative specification in this qualifying product list. On this date, a new DOE test procedure for pool pumps went into effect, which results in energy use reported under a new metric, weighted energy factor. The Consortium is revising the current specification and intends to move to this new metric. Product manufacturers should note that until the specification has been revised, CEE is only able to add models to the list based on energy factor data. While CEE cannot add models to our list based on weighted energy factor data, we would welcome these submissions to inform our specification revision process.

### Key

[Please click here for a list of all models](#)

[Please click here for a list of all models which meet Tier 2 specifications](#)

- Energy Factor (EF) is the volume of water pumped in gallons per watt hour of electric energy consumed by the pump motor (gal/Wh).
- Although all models on the CEE list are very efficient, the tiers are structured so the most efficient products are listed in the higher tiers. For example, Tier 2 would contain the most efficient models.

### How this list is generated:

The products on this list meet the CEE Residential Pool Pump Specification, as well as the ENERGY STAR® Eligibility Criteria (currently Version 1.1), which define performance requirements and test procedures for pool pumps. All product information was obtained directly from the ENERGY STAR® Product Finder database on March 7, 2017.

CEE does not verify manufacturer data with third-party labs, however products on this list have completed ENERGY STAR® third-party certification, and have therefore been tested by an US Environmental Protection Agency (EPA) recognized laboratory.

**CEE does not administer rebate programs. Consumers who have questions about filling out rebate forms should contact their local efficiency program administrator (often the local utility).**

### Terms of Usage

This qualifying products list may not be reproduced, disseminated, published or transferred in any form or by any means, except with the prior written permission of CEE or as specifically provided below.

CEE grants its Members and Participants permission to use the material for their own use in implementing or administering the specific CEE Initiative to which the material relates on the understanding that: (a) CEE's copyright notice will appear on all copies; (b) no modifications to the material will be made; (c) you will not claim ownership or rights in the material; (d) the material will not be published, reproduced, transmitted, stored, sold, or distributed for profit, including in any advertisement or commercial publication; (e) the materials will not be copied or posted on any Internet site, server or computer network without CEE's express consent; and (f) the foregoing limitations have been communicated to all persons who obtain access to or use of the materials as the result of your access and use thereof.

CEE does not make, sell or distribute any products or services, other than CEE membership services, and CEE does not play any implementation role in the programs offered and operated by or on behalf of its members. The accuracy of member program information and of manufacturer product information discussed or compiled in this site is the sole responsibility of the organization furnishing such information to CEE, and CEE is not responsible for any inaccuracies or misrepresentations which may appear therein.

CEE does not itself test or cause to be tested any equipment or technology for merchantability, fitness for purpose, product safety, or energy efficiency and makes no claim with respect thereto. The references and descriptions of products or services within the site are provided "As Is" without any warranty of any kind, express or implied. CEE is not liable for any damages, including consequential damages, of any kind which may result to the user from the use of the site, or any of the product or services described therein.
