

## CEE Super Efficient Home Appliances Initiative Room Air Conditioner Qualifying Product List July 15, 2023

The list is updated monthly. See the CEE website ([www.cee1.org](http://www.cee1.org)) for the most recent listing.  
This list is based on the 2022 CEE Residential Room Air Conditioner Specification.

### Key

- Asterisks(\*) indicate that a coding variable may be used in place of the asterisks to indicate a color or feature that does not affect efficiency
- *Red italics* indicate that a product has been discontinued. Discontinued models are no longer manufactured, but may still be available in the marketplace.
- *Blue italics* indicate a US-only model.
- *Green italics* indicate a Canada-only model.

### How this list is generated:

Manufacturers submit energy use data to CEE for each model as determined by test procedures set by the US Department of Energy. Models are placed in the tier appropriate to their energy use. Tier eligibility is determined by calculating the percentage of product performance over the Federal Standard, rounded to the nearest whole percent.

CEE does not verify manufacturer data, but does require manufacturers to submit data consistent with what they report to the US Department of Energy. Based on the increased scrutiny by the US Department of Energy and certification and verification process implemented by the US Environmental Protection Agency, you may wish to cross-reference the models listed against the ENERGY STAR® qualified product list.

**CEE does not administer rebate programs. Consumers who have questions about filling out rebate forms should contact their local efficiency program administrator, often the local utility.**

### CEE Brand Information

The CEE logo and service mark must not be used in any manner that would imply CEE endorsement of a company, its products, or its services. That means the CEE logo may not appear in a product description or label. CEE is brand and technology neutral. CEE endorses and promotes levels of efficiency through initiatives and publishes lists of products and services whose manufacturers or providers claim to meet CEE efficiency tiers.

If you reference the name "CEE" or "Consortium for Energy Efficiency," please note:

1. CEE does not endorse, certify, qualify, or brand products. Therefore, it is incorrect to claim that a product is "CEE certified" or "has earned a CEE rating."

2. You may indicate that products qualify for or meet one of the CEE tiers of energy efficiency.

The following phrases are accurate: "(product) meets CEE specifications," "qualifies for a CEE tier," or best of all, "the manufacturer claims appliance x meets CEE tier y." We're happy to review your materials and will do so in a timely manner.

For additional information, please see the Press Kits section of our website: [cee1.org/content/press-kits](http://cee1.org/content/press-kits).

We appreciate your support of energy efficiency.

### Terms and Conditions for Use of CEE Qualifying Product Lists

CEE grants to a CEE member that is an efficiency program administrator permission to access, use, and download CEE QPL material solely for its own use in its own program administration, and not for resale, republication, or assistance to any non-CEE member. Any entity that would qualify for CEE membership and elects not to become a CEE member may not use this or any other CEE QPL work product except through a licensing arrangement with CEE. Any entity that provides or offers to provide services to any non-CEE member program administrator may not use CEE QPL work products except through a licensing arrangement with CEE.
