

CEE SUPER EFFICIENT HOME APPLIANCES INITIATIVE

High efficiency specifications for REFRIGERATORS and REFRIGERATOR-FREEZERS

(Terms of Usage below)

Effective September 15, 2014

NOTE: The current federal minimum standard for refrigerators and refrigerator-freezers is dependent on the adjusted volume of the unit and also varies according to configuration and product features. Click [here](#) for more information about the federal standard for refrigerators.

| Efficiency level | PERCENT IMPROVEMENT OVER THE MEASURED¹ FEDERAL MINIMUM EFFICIENCY STANDARD |
|-------------------------|--|
| ENERGY STAR® | 10 |
| CEE Tier 1 | 10 |
| CEE Tier 2 | 15 |
| CEE Tier 3 | 20 |

¹ Measured Minimum Efficiency Standard is defined as the measured energy consumption of the refrigerator according to the DOE test method, prior to the application of any adder (84 kWh/yr) for those models equipped with automatic icemakers. For refrigerators that are so equipped, the percentage improvement is calculated by dividing the differential in annual energy use (between the qualifying model and the minimum standard) by the minimum efficiency standard, less the 84 kWh/yr adder.
